

# Basket Strainer Filter

Model 550

## Product Description

Filter body is made of steel material (may be made of rust resisting steel and bronze material on request). Filter element is manufactured with stainless steel in various meshes and sizes. Filter is removable and may be easily cleaned. It is replaceable with another new one if required.

## Manufacturing Materials

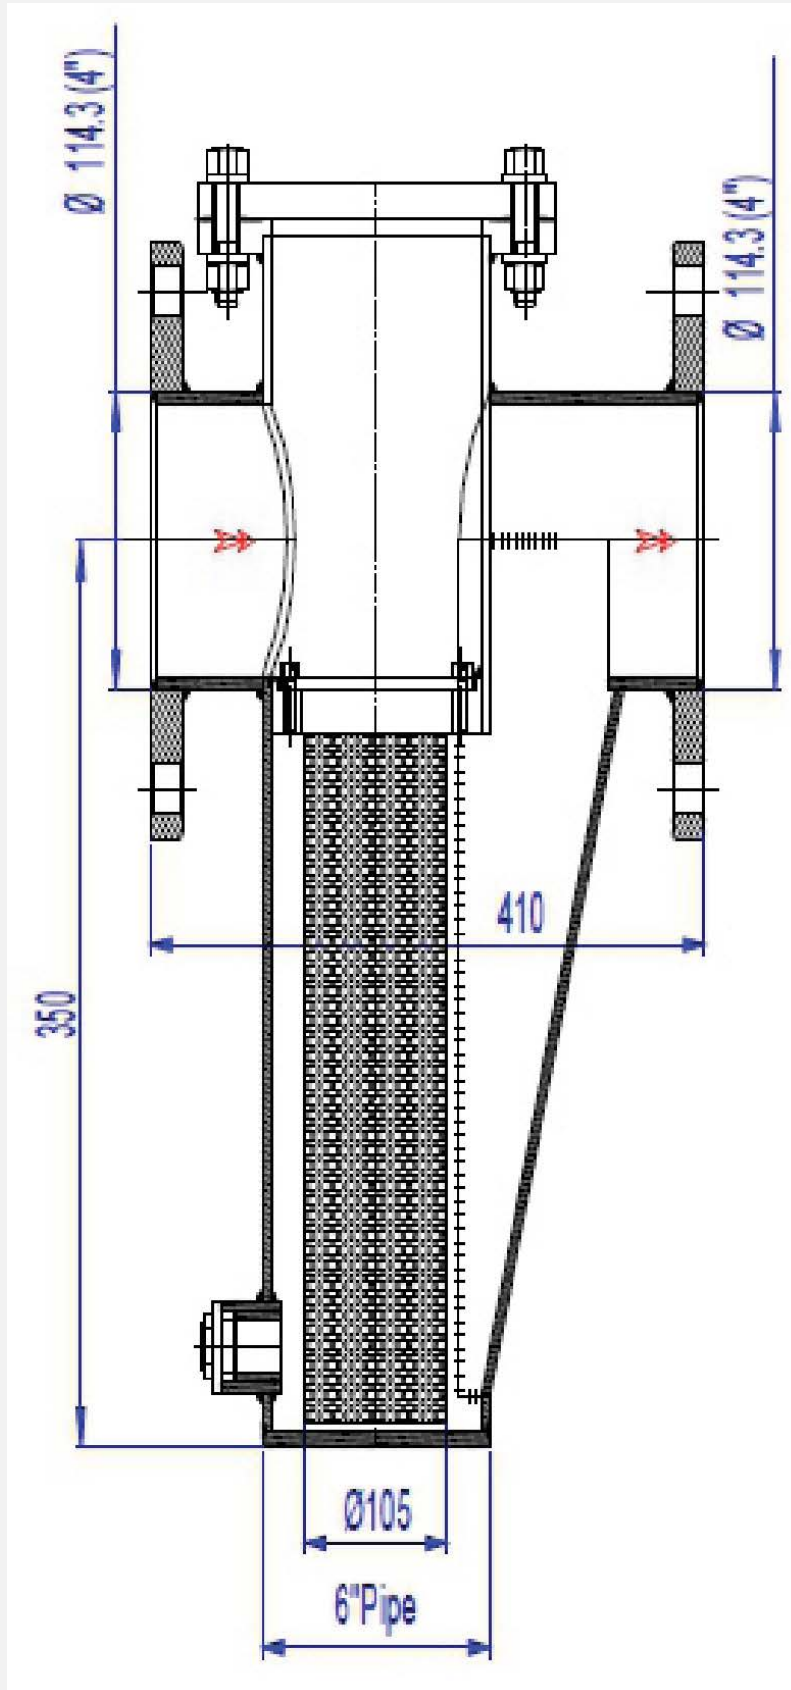

Body	Filter	Gasket	Screws, Nuts, Washer
S.S.	S.S.	Klingrit	S.S.
C.S.			Graphite Viton

## Key Features

- **High Filtration Efficiency:** Designed to maximize the removal of particulates with minimal pressure drop.
- **Durable Construction:** Fabricated from high-grade materials, such as carbon steel or stainless steel, to withstand harsh industrial environments.
- **Easy Maintenance:** Quick-open covers allow for easy basket removal and cleaning, minimizing downtime.
- **Versatile Design:** Available in a range of sizes and end connections to suit different flow rates and piping systems.
- **Customization:** Options for different mesh sizes and materials for the basket to meet specific filtration requirements.
